

POSTER PRESENTATIONS

POSTER WALK 1

June 2nd - 12:30-13:00 - Foyer

Abstract no	Poster place	Title	Name presenting author
4	5.1	Disease control, not severity, drives welfare resource utilization in young adults with asthma – a 15-year nationwide cohort study	K.E.J. Håkansson
5	5.2	Magnesium sulfate for the treatment of acute severe asthma in adults – a systematic review and meta-analysis	O. Savran
34	5.3	Anxiety and depression in women with asthma undergoing fertility treatment	E.Y. Huang
43	5.4	The association between complement C3 and small airway impairment in asthma	S. Kokelj
53	5.5	Long-Term Effect of Dupilumab on Lung Function in Patients With Type 2 Asthma: LIBERTY ASTHMA TRAVERSE Study	S. Tang
54	5.6	Dupilumab Improves Lung Function in Children With Uncontrolled, Moderate-to-Severe Asthma: LIBERTY ASTHMA VOYAGE	S. Tang
28	5.7	BIOMARKERS OF COAGULATIVE PROPERTIES IN PATIENTS WITH AECOPD	P. Kamstrup
7	5.8	Upper airways - Association between olfactory training and quality of life in patients with impaired sense of taste and smell following COVID-19	D. Gertz Mogenssen

POSTER WALK 2

June 2nd - 14:30-15:30 - Foyer

POSTER DISCUSSION 1

June 2nd - 16:00-17:00 - Hangar 2

Abstract no	Poster place	Title	Name presenting author
13	1.1	The prevalence of severe asthma, use of oral corticosteroid and management strategies in the Nordic countries: results from the pan-Nordic NORDSTAR cohort	A. Von Bülow
17	1.2	A comparison of pharmacological asthma treatment from 2005 to 2015 - results from the PRAXIS study	C. Ahlroth Pind
19	1.3	Clinical response and remission in patients with severe asthma treated with biologic therapy: Findings from the nationwide Danish Severe Asthma Registry	S. Hansen
20	1.4	Characteristics and outcomes of patients with severe asthma treated with biologics, stratified according to baseline FEV1: the nationwide Danish Severe Asthma Registry (DSAR)	T. Ingebrigtsen
23	1.5	Factors associated with medication adherence among adults with asthma	E.M. Landt
46	1.6	Venous thromboembolism associated with severe dyspnoea and asthma in 21,205 individuals from the general population	K.F. Nilausen
48	1.7	Association between high-potency inflammatory oral bacteria and lung inflammation	M. Khomich
39	1.8	Impact of co-existing chronic rhinosinusitis on the effect of biological therapy in severe asthma - Danish nationwide cohort study	J. Bruun
1	2.1	Detection of lung cancer using a biomarker panel: Importance of lung cancer stage	M. Borg
11	2.2	Lung Cancer Registries in Denmark, Finland, Norway and Sweden	A. Gouliaev
37	2.3	Survival amongst patients with malignant pleural effusion caused by lung cancer – a retrospective cohort study.	U. Bødtger
22	2.5	Productive vs non-productive chronic cough associated with worse lung health and higher morbidity and mortality in the general population	E.M. Landt

POSTER DISCUSSION 1, CONTINUED**June 2nd - 16:00-17:00 - Hangar 2**

44	2.6	Exhaled biomarkers in adults with non-productive cough	Ö. Emilsson
29	2.7	Mortality in association with occupational exposure and respiratory diagnosis in Helsinki, Finland – a 24-year follow-up	J. Jalasto
41	2.8	Associations of low level air pollution and greenness with mortality in men and women. The Li-fe-GAP project	S. Xu

POSTER WALK 3**June 3rd - 09:30-10:30 - Foyer****POSTER DISCUSSION 2****June 3rd - 11:00-12:00 - Hangar 2**

Abstract no	Poster place	Title	Name presenting author
14	3.1	Characterization of patients with severe fatigue after hospitalization with Covid-19	A. Fløe
27	3.2	Pre-COVID-19 asthma phenotypes and risk of COVID-19 diagnosis	D. Lisik
50	3.3	Changes in surfactant lipid composition six months after severe Covid-19	A.-C. Olin
3	3.4	Multidisciplinary approaches to identifying and managing global airways disease: an expert consensus	V. Backer
51	3.5	Lower percent predicted vital capacity is associated with snoring and nocturnal reflux	R. Shigdel
35	3.6	Smoking is a predictor of complications in all types of surgery – a machine learning based database study	H. Gräsbeck
8	4.1	Extended-Release Morphine for Chronic Breathlessness in Chronic Obstructive Pulmonary Disease: A Randomized Controlled Trial with Blinded Up-Titration over Three Weeks	M. Ekström
9	4.2	Parental COPD as a risk factor for the development of COPD and disease severity in offspring – a systematic scoping review	M.G. Sikjær
10	4.3	Sing-a-Lung: Are changes in physical exercise capacity and quality of life associated after a 10 weeks' Singing for Lung Health programme within pulmonary rehabilitation for patients with COPD?	U. Bødtger
15	4.4	High pressure NIV for acute hypercapnic respiratory failure in COPD: improved survival in a Danish cohort	C. Hedsund
21	4.5	The impact on number of hospitalizations and length of hospital stay for patients with advanced COPD affiliated with a cross-sectorial lung team	B. Refsgaard
31	4.6	Severe α 1-antitrypsin deficiency is associated with increased risk of Heart Failure: Nationwide and cohort studies	S. Voss Winther
32	4.7	Severe α 1-Antitrypsin Deficiency Associated With Lower Blood Pressure and Reduced Risk of Ischemic Heart Disease: A Cohort Study of 91,540 Individuals and A Meta-analysis	S. Voss Winther
52	4.8	Trajectories of GOLD A patients in Denmark – a cohort study	A. Løkke

POSTER WALK 4**June 3rd - 09:30-10:30 - Foyer**

Abstract no	Poster place	Title	Name presenting author
49	6.1	Survival of Finnish bronchiectasis patients	J. Mäntylä
2	6.2	Sex, anxiety and the interplay with physiological variables of stress: a clinical study of patients about to undergo bronchoscopy	E. Jeppesen
25	6.3	Francisella tularensis mimicking malignancy	K.K. Hansen
26	6.4	Pre-COVID-19 obesity-related asthma phenotypes and risk of COVID-19 infection	D. Lisik
6	6.5	Adherence in global airways	C. Haase
45	6.6	Pectoralis muscle index assessed by high-resolution computed tomography and the association to static lung volume in patients with COPD – a pilot study	M.S.G. Brath
47	6.7	Functional vitamin K status and lung function in the Danish general population: The DanFunD study	T. Jespersen
40	6.8	Translation of the Respiratory Symptoms, Sleep quality and NIV-related Side-effects (S3-NIV) Questionnaire into Danish	U. Møller Weinreich
12	7.1	Characteristics of patients developing anxiety after admission for COPD exacerbation	J. Hermann Karlsen
16	7.2	Feasibility of quick functional capacity assessment of citizens with COPD in limited settings	J.G. Spence
18	7.3	Prognostic factors for COPD outcome - a nationwide cohort study	A.O. Nielsen
24	7.4	Inhaled Corticosteroids in Patients with Chronic Obstructive Pulmonary Disease and Risk of Acquiring Streptococcus Pneumoniae Infection. A Multiregional Epidemiological study	C.K. Heerfordt
33	7.5	Risk of hospital admissions and 1-year mortality rate in COPD patients with alcohol abuse	L. Bjerrehave Nielsen
36	7.6	Development in diagnosed comorbidities over a twelve-month period in patients with COPD	M.S.G. Brath
38	7.7	Association between thoracic muscle mass assessed by high-resolution computed tomography and static lung volume in patients with COPD - a pilot study	M.S.G. Brath
42	7.8	Impulse oscillometry as a rule-out method for emphysema	A. Klitgaard
